

IDS (International Data Spaces) Certification Award 2022

Call for Participation

Digital Hub Management (“DHM”) assigns 5 Awards of 20,000 €. The Awards are to be used for the **IDS Component Certification – Concept Review**, as described in the [Framework for the IDS Certification Scheme 2.0](#), the [Certification Criteria – Connector Component 1.0](#) as well as the Award process and the requirements illustrated in the [Information Document](#).

To apply, the applicant must fill in all fields listed below. The awards will be assigned via a jury of experts.

The prize money will be transferred to the winner after completion of the full certification process, which will be the case once the certification report is handed over from evaluation facility to the certification body. The award covers one attempt. In case of a successful certification, the certification body will hand over the certificate.

The winners of the award will be announced between June 27th and July 1st. The award will have a validity of 6 months, which means that the certification for the winning component must be completed within 6 months after the award is granted.

Name of the Connector

Name of the Owner (Company Name)

Name and Contact Details of a Reference Person

Short Description of the Technological Stack (programming language, communication protocol, type of hosting)

Purpose of the Connector

- ☐ The applicant is familiar with the process described in the [Framework for the IDS Certification Scheme 2.0](#), with the [Certification Criteria – Connector Component 1.0](#), with the Award process and the requirements illustrated in this document.
- ☐ The connector is compliant to the [Certification Criteria – Connector Component 1.0](#).
